

Прожекторите PERS са с мощни COB диоди с висок светлинен поток. Те са с IP65 и могат успешно за заменят халогенните прожектори, използвани за осветяване на алеите и тревните площи в паркове и градини, входове на училища, офис и жилищни сгради. LED прожекторите са с дълъг живот 30000h и светят с неутрална дневна светлина 4000K и дневна 6400K.

The floodlights PERS are with powerful COB high lumen LEDs. They have IP65 and could successfully replace the halogen floodlight used for lighting by the walking paths and green park and garden areas, in front of school building, office and living estate entrances. The LED floodlights are with long life 30000h and give cool light 4000K and day light 6400K.
