

Експериментирайте с цветове и дължини, за да създадете уникални светлинни ефекти. Сега VIVALUX предлага гама от свързващи елементи, които ще улеснят свързването на цели LED ленти, комбинирането на отделни секции, както и самото им свързване към захранването, за да бъдат създадени неповторими светлинни проекти.

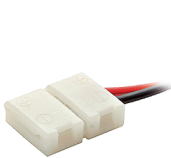

Play with colors and lengths to create unique lighting effects. Now VIVALUX offers you a range of connectors which will make it easy to join LED strips, to connect sections or a simply to plug them in a transformer, to create one of a kind light design.
